

IEEE Women in Engineering (WIE) Montreal Section organizes

STEM Entrepreneurs Panel

Friday, March 15th, 2019 (18:00 – 21:00)

McGill University (3480 University, Montreal, QC H3A 2K6)

McConnell Engineering Building

Room: ENGMC 603

Registration: <https://events.vtools.ieee.org/m/194535>

You are invited to hear about experiences of successful and experienced STEM Entrepreneurs. Join us to learn about how technology along with innovation is helping entrepreneurs build successful Startups. Take advantage of the opportunity to discover real world applications of STEM fields through innovative contributions of experienced entrepreneurs solving complex problems and creating positive impact in our daily lives.

Event is FREE, but spaces are limited! For this event, refreshments will be provided. Please register so that we can anticipate the number of attendees and order food accordingly.
